## WIPING STAINS

*Gemini's Industrial wiping stains series are a solvent-based stain technology, designed to dry quickly while providing excellent open time, wiping characteristics and very even color distribution with no overlap issues.*

<b>S3555-1</b>	<b>PROGRESSION WIPING STAIN BASE (1G)</b>
<b>PRWIPE-0001-1</b>	<b>HONEY (1G)</b>

<b>PRWIPE-0007-1</b>	<b>SABLE (1G)</b>
<b>PRWIPE-0008-1</b>	<b>LAVA (1G)</b>

## SBS SYSTEM COMPONENTS

The Gemini Stain Color Center is used to make wiping stains using an inter-mix system of 12 stain colors and one clear base. The complete setup provides the user with a library of 70 standard wiping stain colors shown on four different wood substrates, with no formulation work involved. Each of the stain colors is a ready to use wiping stain on its own.

The formula book contains the formulas for the other colors which are blends of these colors as well as the clear base.

<b>SB-3555-5</b>	CLEAR BASE (5G)
<b>SC-0101-1</b>	TRANSPARENT YELLOW OXIDE (1G)
<b>SC-0102-1</b>	RED (1G)
<b>SC-0103-1</b>	BLACK (1G)
<b>SC-0104-1</b>	TRANSPARENT RED OXIDE (1G)
<b>SC-0105-1</b>	DARK BROWN (1G)

<b>SC-0109-1</b>	GILSONITE (1G)
<b>SC-0111-1</b>	BURNT UMBER CONCENTRATE (1G)
<b>SC-0112-1</b>	RAW UMBER CONCENTRATE (1G)
<b>SC-0113-1</b>	CARBON BLACK CONCENTRATE (1G)

## SPRAY NO WIPE TINT BASES

These tint bases are spray no wipe stain bases designed for Industrial shops. They are spray only stains and are not designed to be wiped. With proper technique this type of stain allows the finisher to eliminate the blotchy appearance normally associated with difficult to stain woods such as maple, cherry, and birch.

<b>SS-0100-1</b>	PROGRESSION SPRAY STAIN BASE (1G)
------------------	-----------------------------------

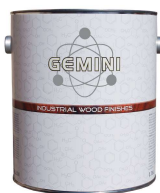

## NGR DYE STAIN CONCENTRATES and DYE STAIN BASES

The NG Series Dye Concentrates are used to create custom NGR dye stains utilizing our NG3000 Dye Stain Base and are designed for spray, no wipe application. They are generally used as a base color or undertone when used underneath a wiping stain to achieve dark colors, or to achieve brilliant background colors when used under light or medium strength wiping stains. They may also be used in small amounts to tint clear, solvent based sealers or topcoats to make a toner/shader

<b>NG3000-1</b>	LOW VOC NG DYE BASE (1G)
<b>NG1510C-Q</b>	NGR RED CONCENTRATE (QT)
<b>NG1610C-Q</b>	NGR ORANGE CONCENTRATE (QT)
<b>NG1703C-Q</b>	NGR YELLOW CONCENTRATE (QT)
<b>NG2000C-Q</b>	NGR GREEN CONCENTRATE (QT)
<b>NG920C-Q</b>	NGR BLUE CONCENTRATE (QT)
<b>NG921C-Q</b>	NGR BROWN RED CONCENTRATE (QT)
<b>NG930C-Q</b>	NGR BLACK CONCENTRATE (QT)
<b>NG950C-Q</b>	NGR BROWN CONCENTRATE (QT)

## GLAZES

Glazes are designed to accent, highlight, and add dimension to a wood finishing system. They should always be applied over a coating i.e., seal coat, primer, or self-sealing topcoat that has been fully cured.

<b>IGL1000-Q</b>	NATURAL GLAZE BASE (QT)
<b>IGL1200-Q</b>	WHITE GLAZE (QT)
<b>IGL1300-Q</b>	JET BLACK GLAZE (QT)
<b>IGL1400-Q</b>	VAN DYKE BROWN GLAZE (QT)
<b>IGL1450-Q</b>	RAW UMBER GLAZE (QT)
<b>IGL1700-Q</b>	BURNT UMBER GLAZE (QT)
<b>IGL3000-1</b>	BREAKAWAY GLAZE BASE (1G)
<b>IGLPU-6000-1</b>	POLYWIPE GLAZE BASE (1G)

Nitrocellulose lacquers are formulated for use on fine wood furniture, interior doors and trim, and various other types of interior wood projects.

They are fast drying, easy to use, easy to touch up and repair, and provide a good durable finish. Not recommended for kitchen or bathroom cabinets.

## WHITE NITROCELLULOSE LACQUERS

**U8080-5** LOW ODOR WHITE LACQUER SEALER (5G)

Gemini's Pre-catalyzed lacquers have been specifically designed to combine ease of use with exceptional durability.

Pre-cats are very durable, water resistant, have excellent sanding properties. Formulated for kitchen and bathroom cabinetry, architectural woodwork, and fine furniture.

## CLEAR PRECATALYZED LACQUERS

**USM-0350-1** ULTRASEAL MAX PRECAT SEALER (1G)  
**USM-0350-5** ULTRASEAL MAX PRECAT SEALER (5G)

## PIGMENTED PRECATALYZED LACQUERS

**NPRW-5000-1** NEXUS PRECAT PRIMER (1G)  
**NPRW-5000-5** NEXUS PRECAT PRIMER (5G)  
**PPR-2000-1** MAX PRIME, BLACK (1G)  
**NEXW-1510-1** NEXUS WHT PRECAT, FLAT (1G)  
**NEXW-1520-1** NEXUS WHT PRECAT, DULL (1G)  
**NEXW-1530-1** NEXUS WHT PRECAT, SATIN (1G)  
**NEXW-1560-1** NEXUS WHT PRECAT, SEMI-GLOSS (1G)  
**PC-1090-1** WHITE PRECAT, GLOSS (1G)

Gemini's Conversion Coatings offer the durability of a conversion varnish with the ease of application generally associated with pre-catalyzed lacquers. Formulated with European polymer technology, these coatings offer a level of durability that lies between a pre-catalyzed lacquer and a conversion varnish.

## WATERBORNE STAINS & GLAZES

Gemini's waterborne stain and glaze bases have been designed for Industrial wood finishing applications.

These products are provided as clear bases that can be tinted to any custom color.

**WGL-1628-1**

WB WIPING GLAZE BASE (1G)

## CLEAR WATERBORNE LACQUERS/PIGMENTED WATERBORNE LACQUERS

Premium Waterborne Lacquers are a single component, acrylic/urethane modified, high solids waterborne coatings system containing low levels of solvent allowing for reduction in VOCs and HAPs.

This system can be used as an introductory performance coating in areas where extreme water and chemical resistance are not necessary. They have good hardness and durability, and have good resistance to yellowing.

*Available Upon Request*

## WATERBORNE FLOOR COATING

Premium Floor Coating is a waterborne urethane specifically designed for use on flooring where hardness, flexibility; and both chemical and abrasion resistance are required. This product is an aliphatic urethane which results in excellent UV resistance.

*Several Sheens Available Upon Request*

## HYDRO PURE

HYDRO-PURE is a super-premium, single pack waterborne coating system which is extremely forgiving and user friendly; while at the same time offering superior durability and a silky smooth look and feel.

Compared to most low VOC solvent based coatings, HYRO-PURE is even lower in VOC levels and easier to use and apply.

### HYDRO PURE CLEAR

- HPURE-0100-1 HYDRO-PURE CLEAR WB SEALER (1G)
