## E-Z Anchor

**E-Z Anchor**

SELF-DRILLING, ONE-PIECE ANCHOR FOR MOUNTING TO GYPSUM WALLBOARD

1. Place #2 Phillips screwdriver into recess of E-Z Anchor.

2. Press into Gypsum wallboard while turning the anchor clockwise until it is seated flush with the wall.

3. Place fixture over E-Z Anchor and insert screw with #2 Phillips screwdriver (#8 type A or AB screw is recommended).

4. Tighten fixture in place ...screw self-threads into anchor (1" min. thread engagement is recommended). Do not overtighten.

Order number **19-150**

→ Not recommended for ceiling applications.

## KeKu Push-Fit Fastener

Order number ..... **19-208**

The **push-fit fastener** allows you to install wooden cladding and trim panels from the front, eliminating the need for top and side free space. The parts are shaped in such a way that the panels lock into the frame as it is pushed home. The strong clamping effect achieved will secure even heavy paneling, but can be easily released at any time without special tools.

Most of the merchandise in this catalog is available in all Hardware Imagination-Tech locations. If your selection isn't available at the store nearest you, we'll gladly order it from one of the other stores or through special order.
